Subject: Directions to the Back Forty

Hello Melanie.

Here are the Google Maps coordinates for the Aquilia office at the project site: 45.454784, -87.831467. You can identify the project site as a large (~60 acre) timber harvest where the property was selectively cut. The office is on the river side of the road at the north end of the cut.

From Menominee take Hwy 41 north through Ingalls. As you get to Stephenson, on the south end of town, turn left on County Road G-12. You will drive about 6 miles and turn right (north) on River Road. The project site is on River Road about 4.75 miles north of the G-12/River Rd. intersection. As you approach the project site, you will see a field on your right that was aggressively harvested about 8 years ago which is mostly young Aspen whips and spotted knapweed. Towards the northern end of the clearing, the office is on the left side of the road. There is a small sign hanging on a post on the far side of the driveway that identifies the house as Aquila's office. The office is a one-story grey cabin on the river with a garage of the left of the driveway. If you have any problems finding the location, you can call my cell at 906-236-0380. We are planning on meeting at the office at 9am CST. Depending on where you are staying in Menominee, I would plan on 45-50 minutes to reach the office.

There isn't much for lunch options in the area, so I would recommend bringing a lunch. I will

likely have a small cooler and ice if you need anything chilled.

I also want to let you know that we are still coordinating information on the public hearing with other divisions, so we have held off on issuing the public notice for the project. That will likely go out late Monday or on Tuesday.

Have a good weekend.

Kristi Wilson
